

Ammar Mohammed Shuaib Khan

SOFTWARE ENGINEER | FULL STACK DEVELOPER

Mumbai, Maharashtra • +91 8369100215 • techammarit@gmail.com • [LinkedIn](#) • [GitHub](#)

EDUCATION

Vasantdada Patil Pratishthan's College of Engineering — B.E., Information Technology **Mumbai | 2024 – 2027**
Vidyalankar Polytechnic — Diploma, Information Technology **Mumbai | 2021 – 2024**

TECHNICAL SKILLS

Languages: Java, Python, C++, JavaScript, SQL

Frontend: React.js, HTML5, CSS3, Bootstrap, Thymeleaf

Backend: Spring Boot, Django, REST APIs, JDBC, MVC Architecture

Databases: PostgreSQL, MySQL, SQLite

Tools & Version Control: Git, GitHub, Maven, VS Code, IntelliJ IDEA

Core CS Fundamentals: Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks

EXPERIENCE

Full Stack Developer Intern **Oct 2025 – Mar 2026**
SynVibes Analytics Private Limited *Mumbai, India*

- Built responsive web and mobile applications using React, React Native, and Node.js, shipping features end-to-end across the stack.
- Designed and implemented REST APIs, improving application performance and refining UI/UX flows for end users.
- Participated in peer code reviews and version-controlled development using Git and GitHub within an Agile team workflow.

Python Developer Intern **Jun 2024 – Jul 2024**
Visual Labs Services Pvt Ltd *Mumbai, India*

- Developed Python applications applying object-oriented design principles to build modular, reusable components.
- Debugged and optimized core modules, resolving performance bottlenecks through profiling and targeted fixes.
- Contributed to design discussions and implementation on active software projects within a collaborative development team.

PROJECTS

Hospital Management System **2026**

Stack: Java, Spring Boot, PostgreSQL, JDBC, Thymeleaf, Bootstrap, Maven | [GitHub](#)

- Architected a full-stack hospital management platform following the MVC pattern, covering patients, doctors, appointments, and billing.
- Implemented secure admin authentication and complete CRUD workflows across all core modules.
- Integrated PostgreSQL via JDBC and built responsive interfaces with Thymeleaf and Bootstrap.

Hybrid Equipment Data Visualization System **2026**

Stack: Django, React, PyQt5, Chart.js, Pandas | GitHub: github.com/ammartech-hub

- Built a hybrid desktop-and-web analytics platform for visualizing equipment data from CSV sources.
- Developed REST APIs and interactive dashboards enabling real-time analytics on equipment metrics.
- Designed the system to serve both a desktop client (PyQt5) and a web client (React) from a shared backend.

ACHIEVEMENTS

- Secured 2nd Rank in a Startup Idea Competition.
- Completed internships spanning Full Stack and Python development.
- Participated in hackathons, coding competitions, and technical paper presentations.
